

# MyStylus™

BY TRUENORTH

INTRODUCING TRUENORTH'S MYSTYLUS APP FOR THE IPHONE

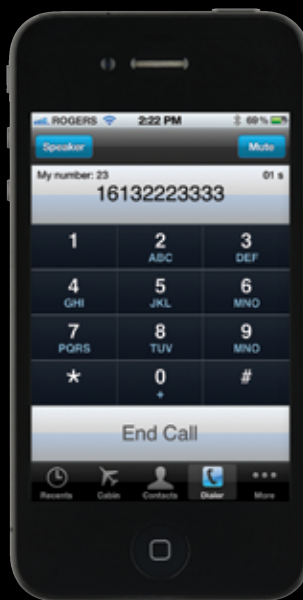

Now, get the capability of the TrueNorth Stylus™ luxury aircraft handset on your iPhone® with the MyStylus app from TrueNorth. Working seamlessly with your aircraft's Simphonē OpenCabin® system, MyStylus lets you make calls from your iPhone contact list, receive incoming calls and place seat-to-seat calls to other passengers on the aircraft.

With MyStylus, you can transfer calls to other TrueNorth Stylus and MyStylus users on the aircraft and conduct conference calls globally. MyStylus also works with your Bluetooth headset, and it features a built-in speakerphone.

Even better, MyStylus automatically configures itself when you connect your iPhone to the Simphonē OpenCabin Wi-Fi hotspot onboard your aircraft, for true walk-on-and-use-it convenience—no iPhone configuration required!

Multifunctional, elegant and easy to use, the MyStylus app is available from the Apple App Store®. Contact TrueNorth to get MyStylus for your iPhone today!
